

Pins & Aces was started in 2017 and the concept was simple. Replace the boring/stale headcovers with products that make your bag standout on the course. In 2020 we introduced polos with a similar mission. We offer apparel with exceptional quality and bold, flashy designs that haven't been seen before in the industry. Business is booming and sales are increasing exponentially year after year. With our expansion into golf pro shops and retail stores, we don't expect to slow down any time soon.

Although we sell to a wide range of demographics, we do very well with males 18-34 and are expanding our ladies and kids' offerings, as well.

Golf is becoming more and more popular with younger generations and these people are not interested in blending in. They bring style and uniqueness to the course which makes Pins & Aces the obvious choice.

Golf is changing.

10 years ago, things like wearing a flashy polo or listening to music on the course would garner frustrated stares from the group behind you. Now, these things are commonplace and it's only getting more relaxed.

Nowadays, you're just as likely to see this polo on a fancy country club course as you are on your local municipal course.

PINS & ACES

GOLF CO.

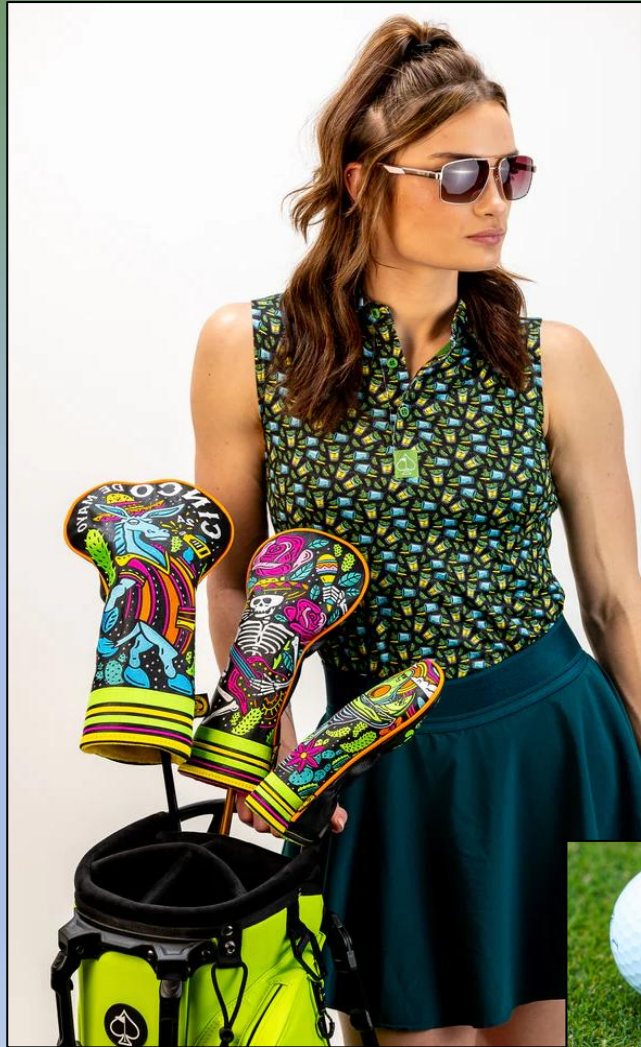

Since we started our company, we've continued to find ways to build our business. We have a killer social media team and have built a solid fan base, which never stops growing. Through our network of sales reps and distributors, we've expanded into thousands of golf pro shops across the country and into international territories, as well. We have endcaps in PGA Tour Superstores and Golf Galaxy stores and are constantly expanding our retail footprint. We keep our offerings fun, fresh and frequent with new graphics and licensed IPs that resonate with our core demographic.
